Restful API

PROJECTS

Brew Survey (08/2023 - 11/2024)

- **Brew Survey is a data collection & mobile survey app that allows you to collect data & feedback using mobile forms from anywhere, even offline**
- **Device Enrollment:** Users can easily enroll multiple devices, ensuring that all iPads and Android tablets are connected and ready for data collection
- **Custom Branding Theme:** Users can design and update their own logos, customize themes, and apply them to surveys, ensuring a clean and professional appearance
- **Subscription-Based Plan:** Users can choose from subscription plans and start with a 14-day free trial. If they like the service, they can upgrade to a paid plan for full access to all features
- **Storage Management:** Data collected offline is securely stored on the device, ensuring that no responses are lost until they are synced
- **Offline Capability:** Users can provide feedback on their mobile devices without an internet connection. Once they are back online, they can sync their feedback

Back Office (07/2022 - 04/2023)

- **The Back office user booking system serves as a centralized hub for managing room reservations across multiple platforms, ensuring a seamless booking experience. This system allows users to create and manage multiple resource bookings efficiently**
- **Real-Time Status Monitoring :** Provide real-time updates on room cleaning status, enabling better communication between housekeeping and front office staff
- **Personalized Communication :** Enable custom notification settings for booking confirmations, reminders, and updates based on user preferences
- **Inventory Management :** Track and manage inventory levels for cleaning supplies, linens, and other essential items, ensuring that resources are always available
- **Price Comparison Tool :** Enable users to compare prices across different resources and platforms, ensuring they find the best deals for their desired bookings
- **Booking Resources:** Integrated various booking sources, including major platforms such as Agoda, Booking.com, Pegi-peg, Travloka, and Reddoorz, ensuring seamless access to a wide range of accommodation options
